# A *Colourful* EXISTENCE

## ARTIST STATEMENT

“A Colourful Existence”, is comprised of a series of paintings that will take you on an emotional journey with nature. Influenced by my travels to Newfoundland and Labrador, Canada, each painting acts as a visual diary chronicling not only the coexistence between human habitation and nature but also the emotions held within these places.

Our travels took us to the east, west and north of the province. Each place offering its own unique beauty and character. At every turn were scenes that took your breath away and filled you with joy and wonder. Using my signature colour palette and minimalistic style, I sought to convey the emotions evoked by the dramatic coastlines, sweeping barrens, and colourful architecture. I worked from my photographs, sketches, and memories to create each painting. It has been a joy to see my experiences manifest into physical form, into a tangible object for all to see and enjoy.

As you view each painting, I invite you to immerse yourself into a state of contemplation, exploration, and connection. Allow the emotions held within these places to fill you with a sense of joy and serenity.

These landscape paintings capture the essence of Newfoundland and Labrador’s beauty and vibrancy. They are an expression of the province’s inviting nature, colourful architecture and breathtaking vistas that exude a place of warmth and hospitality. Simply, they represent a colourful existence.
